RESP Conference 2012 : Emergency Medicine in Clinical Care

The annual RESP Conference is held in the second week of November. Delivered over two days, the conference provides updates on a wide range of emergency topics by invited speakers and is designed for medical, nursing and paramedic professionals. The conference features practical skills workshops covering topics such as paediatric critical care, trauma, cardiac emergencies, advanced airway management and advanced life support. The program for the 2012 conference will be available from April 2012. For information visit resp.learnem.com.au
