

# ALS - MASTERCLASS

## Advanced Hands on Training

**LearnEM Training Centre**  
**47 Manton Street**  
**Hindmarsh SA 5007**

This course is designed for people wanting to extend their knowledge in the care of the deteriorating patient with a focus on acute care areas.

Designed for people with experience in ICU, ED, CCU or rural and remote regions.

*Minimum requirements: Participants are expected to have a minimum level of knowledge and experience. Attendees must have completed at least one ALS recertification within the previous 12 months to attend this course.*

Delivered using a mixed model of online learning and a 1 day practical workshop, topics will include:

- Accreditation for Advanced Life Support and Basic Life Support
- Primary Survey
- The Choking Child
- Advanced Airway Skills
- Set up and management of the OxyLog
- Management of non invasive and invasive ventilation
- Pacing and Cardioversion
- IO Needle Decompression
- Intraosseous and rapid infuser training

**Registration includes ongoing access to the online ALS learning modules.**

**Numbers for this course will be strictly limited.  
Register early to avoid disappointment.**
