

Obstetric Essentials

Practical Skills & Case Based Training

LearnEM Training Centre
47 Manton Street
Hindmarsh SA 5007

Interactive and practical training for General Practitioners and midwives to update knowledge in obstetric emergencies and newborn resuscitation. Also suited to nurses and students wanting to gain knowledge and confidence with deliveries.

Delivered using a mixed model of online learning and a 1 day skills workshop, topics will include:

- Emergencies in Early Pregnancy
- Assessment and Management of Pre-Eclampsia / Eclampsia
- Assessment and Management PV Bleeding in Late Pregnancy
- Managing Delivery
- Managing Shoulder Dystocia
- Managing the Patient with Post-Partum Haemorrhage
- Neonatal Resuscitation

Registration includes access to the LearnEM Obstetric Emergencies e-learning module.

**Numbers for this course will be strictly limited.
Register early to avoid disappointment.**
